SUBJECT: Weekly Report

25X1

6. During a recent OC recruiting stop in Shreveport, Louisiana, a TV news reporter from KSLA, Channel 12, the CBS affiliate station in Shreveport, was quite persistent in her request to film the OC presentation, CIA representatives, and applicants attending the briefing. However, the OC recruitment team was successful in convincing her not to film, and the team was able to conduct the session while the reporter took notes.

25X1

8. OC has prepared software for the Office of SIGINT Operations for use on some of their Wang circuits. The software is based on the Intelligent Communications Terminal software and will allow a station to communicate with another station in a conversational mode. The software will also allow the station to communicate by formatted or unformatted messages.

9. In response to the Comptroller's request, OC reviewed a draft National Security Decision Directive (NSDD) on shared funding of certain NSDD-145 (National Policy on Telecommunications and Automated Information Systems Security) programs. OC recommended that the Director of Central Intelligence oppose the policy because it was inefficient and would be inequitable. The Executive Director used that theme in his response to the Director, Intelligence Community Staff in which he rejected the draft.

11. The OC Employee and Dependent Assistance Center (EDAC) hosted the first 1986 Overseas Orientation Program from 20-23 May [redacted] Career opportunities for spouses and overseas related stress were two new presentations added to the program during this running. Approximately 30 people took part in the program including several from outside of OC.

25X1

12. A special running of an off-line operations course is currently being provided to a Directorate of Science and Technology officer [redacted] This course was designed to meet the timing requirements of individual students requiring specialized OC training.
